# Eurol Fusion 10W-40

**Semi-synthetic motor oil for mixed fleet**

Article number E100113 Version 6.1 14/04/2025

## Product information

Eurol Fusion 10W-40 is a robust semi-synthetic engine oil and is ideally suited for heavy-duty diesel engines (trucks), but can also be used in gasoline, LPG, and light diesel engines, whether or not equipped with a turbo and/or catalyst and/or common rail.

Eurol Fusion 10W-40 has a large number of leading OEM specifications and is therefore a multifunctional engine oil for a mixed fleet.

Eurol Fusion 10W-40 amply meets the reduced limits regarding deposits on the piston crown, in the top piston ring groove, and the rest of the piston.

Due to its stability against high temperatures and aging, as well as the strong cleaning additives, Eurol Fusion 10W-40 ensures that the engine and the oil remain in good condition.

Wear is minimized, even under the toughest conditions, so Eurol Fusion 10W-40 effortlessly meets the prescribed oil change interval, regardless of the engine type.

Eurol Fusion 10W-40 contains synthetic base oils that not only ensure a good cold start but also provide some fuel savings and reduced oil consumption due to less evaporation.
