

Automatic transmission fluids - Fully Synthetic

Eurol ATF 7300

Low Viscosity Full Synthetic Automatic Transmission Oil

Description

Eurol ATF 7300 is a fully synthetic automatic transmission oil specially developed and mandatory for Mercedes Benz 7-speed NAG2FE+ automatic transmissions as from June 2010 requiring low viscosity ATF.

Eurol ATF 7300 is formulated with high quality synthetic base oils and with the latest additives. This to guarantee a constant high level of its unique shifting properties during use.

Eurol ATF 7300 offers a significant reduction of fuel consumption and CO₂ emission, not only due to tailored additives, but also due to its low viscosity

Eurol ATF 7300 has a stable and high viscosity index and a low pour point. The lubricating properties and friction characteristics are carefully adjusted to obtain comfortable shifting and fuel reduction.

Eurol ATF 7300 offers excellent resistance against oxidation, corrosion and foam formation, resulting in a constant high performance during its lifetime.

Not backwards compatible with previous MB specs; also not for MB 236.10, MB 236.12 and MB 236.14.

Recommended for use

- MB 236.15

Physical properties

Colour	Blue	
Density at 20°C	0.834 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	22.3 cSt	ASTM D 445
Viscosity, kinematic at 100°C	5 cSt	ASTM D 445
Viscosity Index	161	ASTM D 2270
Flash point	188 °C	ASTM D 93
Pour point	-48 °C	ASTM D 97
