

Scooter oils 2T - Semi-synthetic

# Eurol TTX Supreme

Semi-synthetic 2-stroke oil for air- and water-cooled 2-stroke engines

## Description

Eurol TTX Supreme is a semi-synthetic oil, especially developed for air- and water-cooled 2-stroke engines (radiator cooling), with or without a catalytic converter. The product is also very suitable for injection systems.

Eurol TTX Supreme has been formulated from base oils and long-lasting 'protection additives'. The product offers a strong lubricant film and an excellent lubrication at high temperatures. Combustion chambers and scavenging ports are kept clean from deposits and protected against wear and corrosion. Spark plugs stay clean and perform as required.

Eurol TTX Supreme is easily mixed with petrol to a homogeneous pre-mix. It prevents from scuffing and deposits on pistons and in the exhaust system. Due to the balanced formulation, a long lifetime of the engine is guaranteed. Smoke is reduced to a minimum.

Eurol TTX Supreme offers a smooth and rapid start at low temperatures and it helps to make full use of the engine's generated power.

"Mixing ratio:

1:50 (if not otherwise prescribed)

## Performance level

- API TC
- JASO FD
- ISO-L-EGD
- TISI
- Husqvarna 346
- Husqvarna 242

## Physical properties

Colour	Green	
Density at 20°C	0.873 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	98.6 cSt	ASTM D 445
Viscosity, kinematic at 100°C	12.5 cSt	ASTM D 445
Viscosity Index	120	ASTM D 2270
Flash point	95 °C	ASTM D 93
Pour point	-39 °C	ASTM D 97
