

Motorcycle oils 4T - Semi-synthetic

Eurol Synra 20W-50

Synthetic motor oil for Ducati motorcycles

Description

Eurol Synra 20W-50 is a modern synthetic engine oil and has been especially developed for an optimal lubrication of 4-stroke Ducati motorcycles. The balanced additive package, together with the carefully selected base stocks, guarantee perfect engine performance under all weather and driving conditions.

Eurol Synra 20W-50 ensures a very strong consistent lubrication under the most severe (racing) conditions, protecting the engine optimally. Despite the sometimes high operating temperatures, volatility of the oil is kept to a minimum.

Eurol Synra 20W-50 also reduces foam building to a minimum. Eurol Synra 20W-50 performs at its best under very heavy operating conditions at high speeds and high output.

Despite the extreme conditions in the toothed gearings, the special oil thickener hardly breaks down, so that at high temperatures the viscosity stays high enough to guarantee a solid lubricant film.

Performance level

- API SH
- API SJ
- API CF
- JASO MA
- JASO MA2

Physical properties

Colour	brown	
Density at 20°C	0.884 kg/l	ASTM D 4052
Viscosity, kinematic at 40°C	162.9 cSt	ASTM D 445
Viscosity, kinematic at 100°C	18.6 cSt	ASTM D 445
Viscosity Index	128	ASTM D 2270
Viscosity, dynamic (CCS)	6754 cP	ASTM D 5293
Flash point	212 °C	ASTM D 93
Pour point	-30 °C	ASTM D 97

Article number E100049
